

COMMUNITY PARTNERSHIP FOR CHILDREN (CPC) IMAGINARIUM

Serving as a steppingstone for CPC to expand its resource initiatives, creating a sustainable attraction for families.

CPC is committed to supporting Grant County, and here's how the Family Resource Center/Exploratory will enhance resources in two key areas:

1. *As a Family Resource Center (FRC)*
2. *As a Children's Exploratory (CE)*

The FRC will provide a diverse array of services for Grant County residents, which will include, but is not limited to:

- Guidance in selecting affordable and accessible Early Childhood Education (ECE) programs for infants and young children
- Education for families, providers, and community members
- Access to family resources, interactions with Community Health Workers, and support groups for caregivers
- A nurturing learning environment tailored for young children
- Opportunities to foster mental, physical, and emotional growth
- A lending library: Families and childcare providers will have access to a collection of materials available for checkout
